

**LEGISLATION HAS BEEN PASSED.
LIVES ARE BEING SAVED.
AND WE'RE JUST GETTING STARTED.**

**SHATTER
PROOF™**
STRONGER THAN ADDICTION

In just a few years, we've already made a big impact on America's addiction epidemic.

We've grown our community alliance program to include **over 150 local ambassadors**. These ambassadors are out in their communities, educating and empowering others to support our mission.

We developed the **industry-leading white paper for state legislation on Prescription Drug Monitoring Programs**. All state governments have received it, and we've successfully changed laws in several states.

VISIT SHATTERPROOF.ORG TO GET INVOLVED TODAY

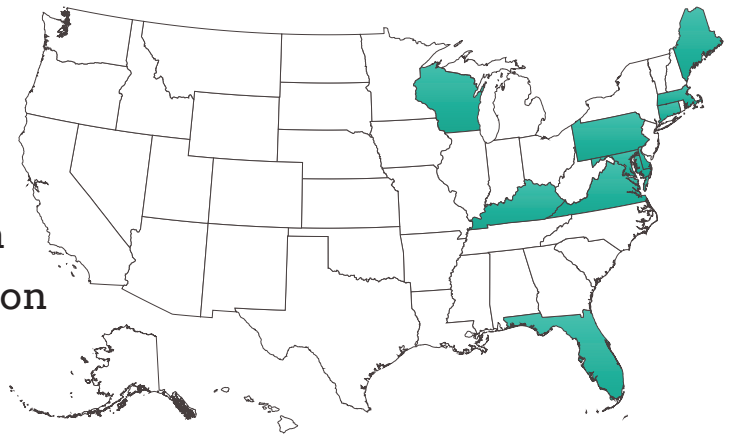

We've **rallied families to testify at federal hearings** supporting change-making legislation, like the CDC Guideline for Prescribing Opioids for Chronic Pain and the Comprehensive Addiction and Recovery Act.

We've **mobilized thousands of families to contact their lawmakers** and voice their support for important state and federal legislation.

We've **helped get legislation passed in ten states.** These laws range from expanding access to overdose-reversing naloxone, strengthening Good Samaritan laws, and mandating the use of Prescription Drug Monitoring Programs.

THE SHATTERPROOF™ CHALLENGE

We're changing the conversation about addiction through the **largest national event series focused on addiction awareness: The Shatterproof Challenge Rappel.**

We're working every day to end the disease of addiction.
