

THESE ARE PERILOUS TIMES FOR CARING COMMUNITIES.

Recent actions of the new administration have made this an especially hazardous time for people living with HIV/AIDS.

- **Repeal of the Affordable Care Act** could throw thousands of HIV-positive people off of insurance, and inhibit their access to life-saving care and drugs.
- The new administration has **vowed to cut off federal grants** in sanctuary cities that have pledged to protect undocumented immigrants. Cities in New Jersey like Jersey City, Newark, New Brunswick, Plainfield, and Trenton – all areas with Hyacinth offices that serve our clients most in need – could be affected. This is a threat to the wellbeing of thousands of New Jerseyans living with HIV/AIDS, no matter their country of origin.
- All information regarding the National HIV/AIDS Strategy has been **scrubbed from the White House website**. Meanwhile, the Office of National AIDS Policy has been **left unstaffed for weeks**.

In response, our message must be clear, and our clear actions must follow:

Not in New Jersey. Not on our watch.

As federal safety nets are frayed, **the funds we raise** at AIDS Walk New York will ensure that **Hyacinth** can beat back any and all attempts to reverse the progress we have made in the fight against **HIV/AIDS**. Your efforts will help Hyacinth continue to boldly advocate on behalf of its clients regardless of race, gender, or immigration status.

Respond to these threats. **Resist** attacks on our public health, liberty, and equality. **Reach out** to your networks to help us raise vital funds. Take a stand *against* rollbacks in lifesaving advancements, and *for* our community.

FUNDRAISE NOW!

We are here to help you.
For additional information and
fundraising tips, call 212.807.WALK
or visit aidswalk.net.

**RESPOND.
RESIST.
REACH OUT.**
