Zacharias Sexual Abuse Center has been working to end sexual assault and abuse since 1983. All counseling and advocacy services are free to anyone seeking help on their healing journey. We are built upon a foundation of strong community partnerships, which have opened the doors to healing for more than 44,000 northern Illinois residents each year. To keep our programming consistent and provide these invaluable services, educational programs, and trainings throughout our community we rely on sponsorships like yours. Please become a sponsor today! In the last 5 years, this race has grown from 100 racers to over 450 participants from the North Shore.
