## Owen

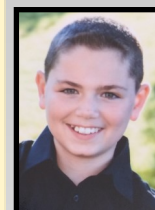

"Owen was diagnosed with Nephrotic Syndrome in 2004. He has battled a dependency on steroids for most of his life and had

terrible reaction to this toxic medication. He is full of life on the outside, while on the inside it is like a jigsaw puzzle with some pieces that just won't fit right, no matter what direction we try. "

- Owen's Parents

## Matthew

"Our son, Matthew, was diagnosed with FSGS when he was only 3 years old. Treatment is trial and error. We continue to pray every day that a cure will be discovered and our little boy will be healthy again."

- Matthew's Parents
