How To Add Walkers To Your Team

To add walkers to your team who do not wish to raise funds on line, such as children, go to your HQ. There is a list of task on the right side of the page. Click on the first one labeled, Join Walk For a Difference. You will have the ability to list these walkers there. You can use this link even if it's crossed out.

To add walkers or team members who do want to raise funds on line, go to your HQ and click on the second task on the list. It's called, Create or Join a Team. From there you can email anyone you wish to invite to join your team.

If you have friends who want to help, but can't come to the walk, they can list themselves as virtual walkers. They can still help you meet your goal.
