

Team Building

Maximize Your Reach

Posting to social media has never been easier. You can share status, update, tweet or post to Facebook or other sites. When you are in your HQ, there are several options for reaching friends and family on the left side of the dashboard. Click on Promote Via Social Media and choose from the options.

You can even link your fundraising page to your social media account and schedule automatic posts with the Auto-Post feature. You can control what action triggers an automatic social post including:

- Any time you receive a donation
- Any time a team member receives a donation
- Any time someone joins your team
- Any time you make Updates to your goal or personal fundraising page
